

## CPD Seminar (2019)

### *Innovative Design for Safety ~ Working at Height*

Date	:	16 April 2019 (Tue.)
Time	:	19:00 to 21:00 (2 hours of CPD Certification)
Venue	:	LT 701 at VTC Tower, 27 Wood Road, Wan Chai
Charge	:	Fee of charge
Language	:	English with Cantonese explanation
Speaker	:	Mr. Andy LO

Mr. Andy LO has accumulated many years' industry experience which including project management in civil engineering works and higher education and training experience in occupational safety and health (OSH) for The Hong Kong Polytechnic University and the Occupational Safety and Health Council. During his pro-longed years of service with the Mass Transit Railway Corporation, Andy has involved substantial construction safety management experience which including the implementation of design for safety and constructability. Related nature of works including tunneling construction, bridges and viaducts construction, railway stations and depot construction, track works and rolling stocks, E&M and BS installation and other heavy ventilation plant buildings. The working at height issue remains one of his favorable subjects.

#### **Highlight of the Seminar:**

Experience in overseas suggests that design for safety could help in accident prevention. Following a review, the Development Bureau issued a Guidance Note on Design for Safety in 2015. The key objectives of the Guidance are to promote effective cooperation and communication to all stakeholders; to clarify safety responsibilities of the client, designer, contractor and the maintenance supervisor; and to identify the application process and risk reduction measures. The Development Bureau's approach to design for safety is similar to that for CDM in the UK, but in HK there is greater emphasis on the role and responsibility of the maintenance supervisor. The presentation will discuss the innovative application of design for safety at different project stages, from preliminary design through to tendering, construction, operation and maintenance. There will be a few innovative sharing on design for safety initiatives, which including working at height examples at design and construction stages from different construction stakeholders. Design for safety is new to Hong Kong, without relevant legislation, and lack of safety data and reference material for designers and stakeholders, Hong Kong may need a longer time to enhance design for safety for accident prevention. However, there is a strongly belief that design for safety is one of the key elements in enhancing OSH for the construction industry.

### Supporting Organizations 支持機構

#### Supporting Organizations (alphabetical order):

- Australian Institute of Building (HK)*
- Chartered Association of Building Engineers(HK)*
- Contractor's Authorised Signatory Association*
- Hong Kong Industrial Safety Association*
- Hong Kong Institute of Construction Managers*
- Hong Kong Institution of Incorporated Engineers*
- Hong Kong Licensed Plumbing Professionals Association*
- The Hong Kong Federation of Occupational Safety and Health Associations*
- The Hong Kong Institution of Plumbing and Drainage*
- The Hong Kong Institute of Environmentalists*
- The Hong Kong Occupational Safety and Health Association*
- The Institute of Clerks of Works and Construction Inspectorate (HK)*
- The Institution of Safety Engineers*
- Shenzhen-Hong Kong Institute of Professional Management Association*

#### Note for Registration Seminar:-

1. Closing Date for Registration: 10 April 2019
2. Only available for **online registration**: <http://hkiw.org/registration.php?event=42>
3. Confirmation will be sent to successful applicant before the seminar.
4. 2 hours of CPD Certification who is registered before the seminar.
5. Participants will receive an acknowledgement for the Seminar enrolment by e-mail.
6. The number of participants is restricted to about 100. Applications will be dealt with on a first-come, first-served basis. The Institute reserves the right not to admit an applicant.
7. The Institute reserves the right to alter the details of this Seminar such as change of time, date, venue and speaker or to cancel the Seminar in case of need.
8. For enquiries, please contact: Secretariat HKICW by email: [admin@hkiw.org](mailto:admin@hkiw.org) or Tel: 2815 7030
9. Personal data provided on the enrolment form will be used by the Institute for purposes relating to this Seminar.

Disclaimer: The Hong Kong Institute of Clerks of Works will not be liable or provide any type of insurance coverage to the participants for any personal accident, property loss / damage or virus inflection arising from the workshop. Participants should make their own insurance arrangement at their own expenses.
